

# PRODECK

REAL FEEL

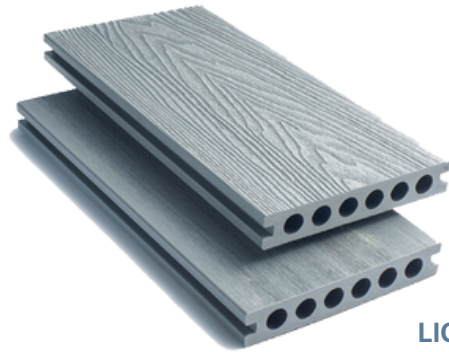

# Co-Extrusion Decking with deep wood grain texture.

REDWOOD

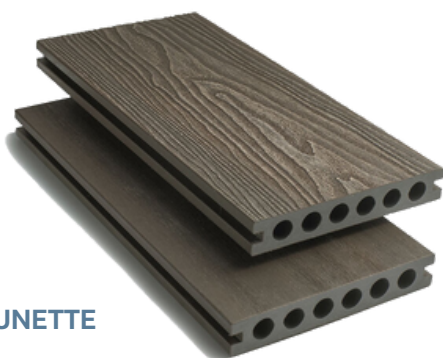

LIGHT SLATE

GOLDEN HARVEST

SAGE

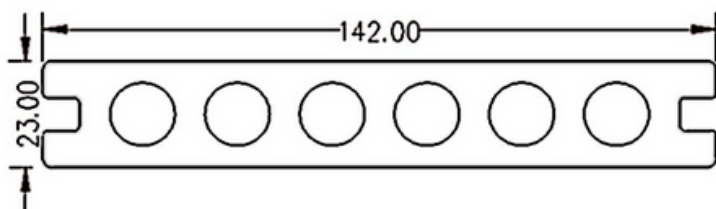

BRUNETTE

NOIR

SECTION

Thickness of the shell:  $0.5 \pm 0.1$  mm min.

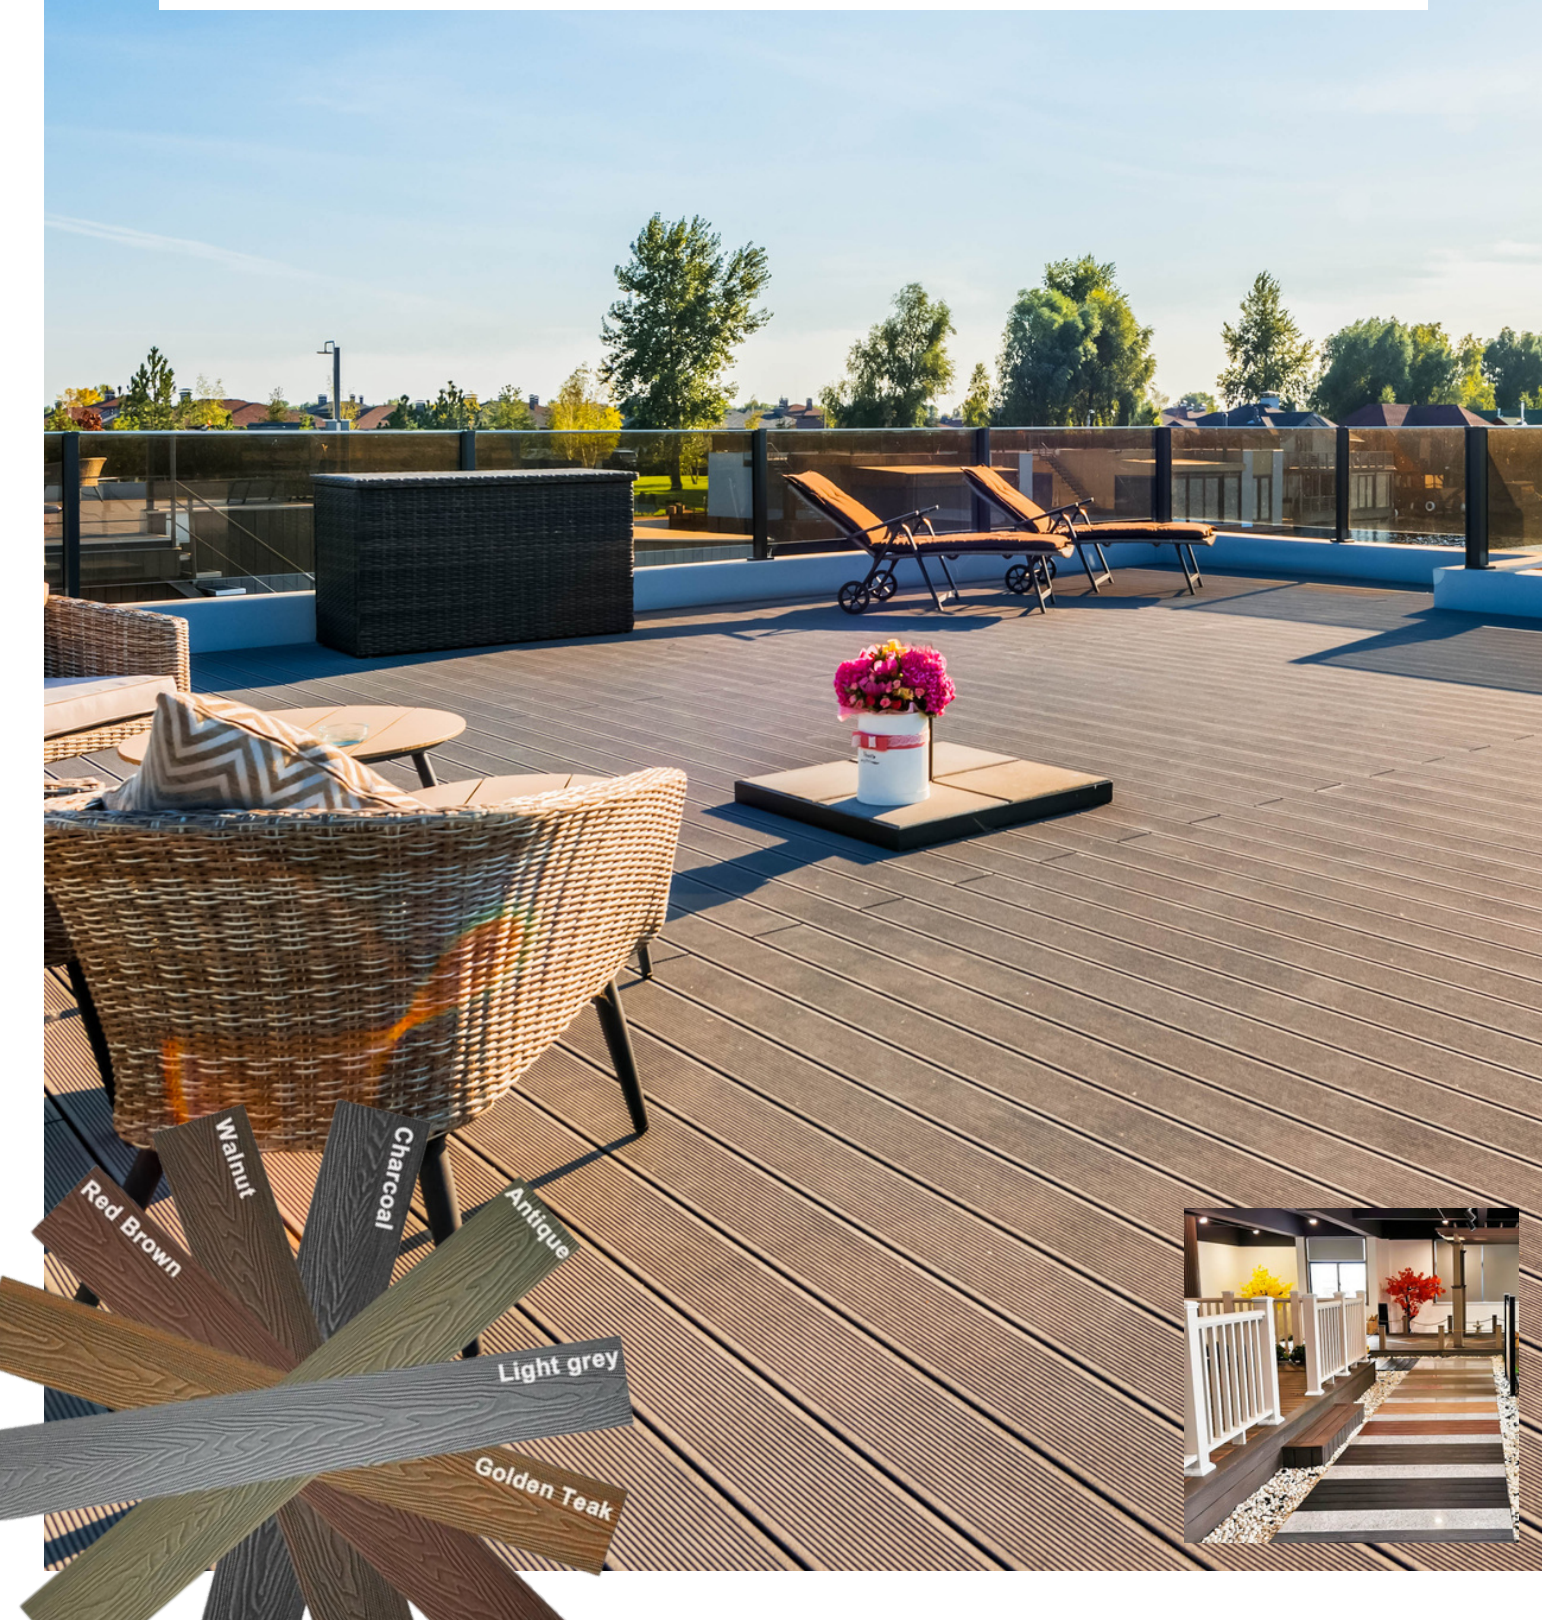

The core is still made of wood plastic composites.

# SUPERIOR QUALITY

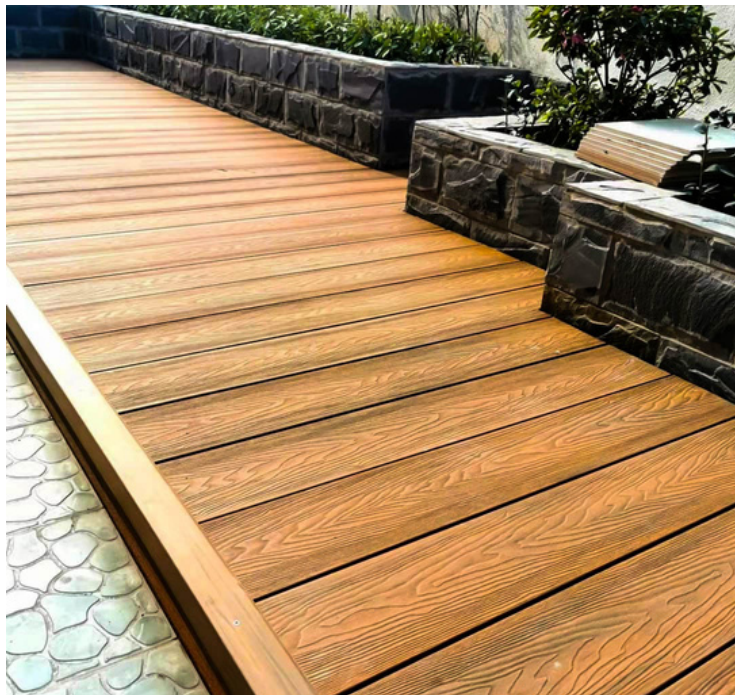

The ProDeck shells are comprised of a customised plastic that resists scratches, is simple to clean, and prevents the inside of BPC material from absorbing water.
