EDL compact

EDL Compact is a Singaporean based company that produces laminates that are designed and manufactured with aesthetics and durability in mind. These laminates allow you to create beautiful spaces with beautiful materials. They come in a wide variety of designs and colours to allow you to create works of art around your home.

These laminates are easy to maintain and will last through the years when used as recommended and with appropriate care. They are engineered with the latest trends and technology to ensure they are always on the forefront in providing raw materials to be shaped by artists.

EDL Compact is determined to bring you only the best solutions and products. As such they have partnered with leading teams from countries like Italy, Japan, Taiwan and Korea through research and development to offer modern choices synonymous with your needs.
